

# TECHNICAL SPECIFICATION SHEET

## Copra

Early Storage / Export Onion

**A long time favorite export type onion due to its rock hard bulbs and attractive medium dark scales, this hybrid is equally adapted for the export growing areas of the Columbia Basin as well as the muck soils of the Northeast and Canada. Necks are thin and the uniformity of shape is very good. Copra is excellent for long-term storage.**

Variety	Relative Maturity	Bulb Shape	Grade Range	Skin Color	Storage Potential	Disease Resistance
<b>Copra</b>	107 days	Globe	M-J	Medium	8 months	FBR
