

TECHNICAL SPECIFICATION SHEET

Frontier

Early Storage / Export Onion

A very early maturing northern long-day onion with excellent uniformity and dark brown skin. Frontier produces fine-necked, globe to flattened globe shaped bulbs. With medium to long-term storability. Frontier also has an impressive disease package, with tolerance to Fusarium Basal Rot, Botrytis, Bacterial Soft Rot and Downy Mildew. In the Pacific Northwest, Frontier is an excellent variety for export and early harvest.

Variety	Relative Maturity	Bulb Shape	Grade Range	Skin Color	Storage Potential	Disease Resistance
Frontier	98 days	Flattened Globe	M	Dark Brown	7 months	FBR
