

TECHNICAL SPECIFICATION SHEET

Mercury

Red Onion

Mercury is an early maturing red hybrid that has shown excellent potential for high yields of large-sized, globe-shaped bulbs. Whether whole or sliced, the dark red interior highlights the bulb's rich coloring through the center. Mercury typically matures in mid-August and can be stored into March.

Variety	Relative Maturity	Bulb Shape	Grade Range	Skin Color	Storage Potential	Disease Resistance
Mercury	112 days	Globe	M-J	Dark Red	5 months	PR(IR)
