

TECHNICAL SPECIFICATION SHEET

Outrigger

Early Storage / Export Onion

The earliest storage-spanish hybrid from Seminis fits in the Brown Beauty class and is rated at 107 days. It features long-term storability and a uniform globe shape with a trim neck – ideal characteristics for exporting. Scales are an attractive medium bronze color. Outrigger was developed primarily for the Pacific Northwest and Colorado. It is resistant to Fusarium basal rot and intermediately resistant to pink root. The small necks makes Outrigger a good choice for overhead irrigation.

Variety	Relative Maturity	Bulb Shape	Grade Range	Skin Color	Storage Potential	Disease Resistance
Outrigger	107 days	Globe	M-J	Med Dark	7 months	PR(IR), FBR
